The Standard AND RIVER PLATE NEWS.

No 2,807—Eleventh Year. BUENOS AYRES, FRIDAY, SEPTEMBER 22, 1871. Circulation, 3000.

MAUA BANK,
101—103 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours' previous notice is required to begiven to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m till 3 p.m.

P. P. Maua & Co.
M. A. de FREITAS AMORIM.

January 1st, 1868.

MIXTURA PARA TERCIANAS DE JAYNE,
A CERTAIN AND EFFECTUAL REMEDY
For Fever and Ague, Intermittent and Remittent Fevers, &c.

This class of diseases, so common in all part of the world, and specially prevalent in malarious districts and vicinage of water courses, are almost invariably accompanied by more or less derangement of the liver, and frequently by a defective action of the digestive organs.

The mere breaking of the Chill is but a step towards completing a radical cure. The various organs of the body, especially the stomach and liver, must be brought to a healthy and vigorous condition before a permanent cure can be established, and this fact has been specially kept in view by Dr. Jayne in his treatment of these complaints. The use of Jayne's Ague Mixture in conjunction with the Sanative Pills, as prescribed in the directions which accompany each bottle, will not only

Break up the Chills,

But restore the system more particularly the liver and stomach, to a sound condition, and so prevent a relapse of Fever and Ague, by thoroughly

Eradicating the Dissase,

And the best evidence of this is the invariable success which has always followed the administration of these remedies, as attested by the certificates published annually in Dr. Jayne's Almanac, and the wide-spread popularity of the Ague Mixture in those districts of the United States, where the diseases, for which it is adapted, most prevail.

All Dr. D. Jayne's Family Medicines are prepared only at 242 Chestnut-street, Philadelphia, and are sold by Druggists everywhere.

Coliseum Hall.

Something Rare for Buenos Ayres.

ROLLER SKATING.

At Coliseum Hall

EVERY NIGHT FOR A WEEK.

Mr. W. H. Huntley, recently from New York, will be in attendance with a full assortment of Patent Roller Parler Skates, for the purpose of organizing a Skating Association in Buenos Ayres, similar to those now in operation in the United States, Canada, England and France.

In-door Skating has now become a most popular and fashionable amusement, and is strongly recommended by prominent American and English physicians, especially for Ladies and Children—it strengthens and develops the muscular system, and is now being introduced in to public schools and colleges.

Skating will commence at 8 o'clock and close at half past 10.

LADIES CLASS.

The Hall will be opened every afternoon from 2 to 4 o'clock, especially for Ladies and Children. No Gentlemen admitted.

The free use of Skates permitted.
Admission........ $20
Children.......... 10

THE TRUE
THEORY OF PURGATION,
Applied to the
Liver, Kidneys, Skin, Stomach, and Bowels.

Dr. RADWAY'S
Perfect
PURGATIVE PILLS,
Perfectly tasteless—Elegantly Coated.

'Materia Medica' contains, in its repertoire, many purgative and cathartic agents that, for ordinary purposes, opens the bowels, and through what is called a 'perisaltic' movement, purges from the alimentory canal the fæces, and this is all. Such agents, for the purpose of cure, or removal of any settled cure, are perfectly useless.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purpose of a Purgative, Aperiant, Counter-Irritant, Alterative Pill, that can be taken or administered with the absolute certainty of securing thorough evpulsion of all decayed and decomposing element of the human body, and also safe to take in the most malignant of Eruptive Fevers. In cases where the mucuous membranes of the internal viscera are suffering from Ulceration, Inflammation, or from

LIVER
Gastric, Biliary, Pancreatic Complaints,
Dr. RADWAY'S PILLS
Supply the only Vegetable substitute for
CALOMEL OR MERCURA:

In Radway's Pills you have one medicine that will secure quicker, more thorough and better results than will be gived in from three or more different prescriptions of the medical practitioner. As a proof of this—You are seized with a bilious attack! Doctor prescribes blue pills or calomel. Next, come drastic aloetic pill or powders, to work off the effects of the blue pills this prostrates you, and a tonic is next given, to a gentle aperiant, whereas one dose of Radway's Pills will do all the work that the three or more prescriptions are given for, without running any risk from mecurialising or salivating the system.

Radway's Pills.

In Radway's Pills the true principle of purgation is secured—not alone to the office of dismissing the fæces and excrements from the bowels, but these rumors that are checked or stopped in their passage through the Skin, Kidneys, Lungs, and all excreting and secreting functiono; for if these excrementatious secretions belonging to the skin, liver, lungs, kidneys, are interrupted in their escape, they become products of decay and decomposition, and must be purged from the living body through their proper channels; hence the purgative qualities of Radway's Pills extend to the secretions of the Skin, Kidneys, Diver, &c.; whereas not one of the advertised Pills claim to act beyond the bowels.

How to take Radway's Pills.
Their daily use.

In doses of one or two pills, by all persons of a full habit of body, subject to giddiness, rush of blood to the head, palpitation of the heart, and all those subject to fits, will not only keep the blood from becoming congested or clogged up in the blood vessels, but will equalise its circulation, and prevent sudden attacks of apoplexy, disease of the heart, congestion. Persons who will take one of these Pills every day will not suffer from Head-aches, Dizziness, Hysterics, Fainting Spells, Pains around the Heart, and a hundred other disagreeable symptoms.

DYSPEPSIA.

One of Radway's Pills, two or three hours before dinner, taken daily, will keep the system free from Dyspepsia, Constipation, Costiveness, &c. &c.

Bear in Mind,

Radway's Pills are the only purgative that will secure an alterative, diuretic, sudorific, aperiant, and tonic influence.

They are the only vegetable substitutes for Calomel or Mercury.

They promote the secretion of bile, and withdraw it from the circulation.

They assist, through their nutritous properties, the chyme and chyle, and gastric juices in the process of digestion.

They are elegantly coated with Gum, perfectly tasteless, and free from smell.

"Nil falsi audeam nil veri non audeam dicere" CICERO.

FRIDAY, SEPTEMBER 22, 1871.

THE GIRONDE MAILS.

LATEST FROM EUROPE.

Lisbon, Aug. 27th.

The feeling in the House of Commons seems adverse to the Government in regard to the disturbances produced in Dublin by the illegal interference of the police with the pro-Fenian meeting at Phœnix Park. Sir John Grey moved a vote of censure which was warmly supported, and as fiercely combatted by Mr. Gladstone and his colleagues, who begged the discussion should be postponed for a week. Meantime the Viceroy and Lord Hartington have followed up their policy by prohibiting the usual Orange demonstrations at Derry on August 12th.

An Anglo-Spanish-Italian alliance is spoken of at Madrid, and it is supposed Mr. Layard is acting on instructions to this effect, with the special object of guaranteeing the present condition of affairs in the East.

Several of the Communists are at present in London, viz. Delescluze, Rigault, Mulon, Bruncreau, Bellivier, Ostyn, Clemence, Chardon and Leo, who may be often seen at Simpson's Tavern in the Strand. The fete Napoleon was kept at Chislehurst with becoming modesty. The ex-imperial family, after Mass, entertained a number of friends and fallen coutiers at breakfast. During the day their ex-Majesties received 68 bouquets and 74 telegrams, including some from the Prince of Wales, Emperor of Austria, King of Portugal, King of Sweden, Queen of Holland, Prince Hohenzollern-Sigmaringen &c. and a splendid album from the market-women of Paris.

Mr. Paul Toepler's invention for wool-washing calls attention in London. The Attorney General sent for him, to enquire into its merits for a patent, and if successful it promises great results. Mr. Rammell has tried at Sydenham a new kind of atmospheric railway.

The Emperor and Empress of Brazil arrived at Brussels on the 15th and put up at Belle Vue Hotel. The King of Belgium invited them to a banquet at the Palace of Lacken on the 17th. Dom Pedro assisted at the Geographical Conference of Belgium and was voted a member by acclamation.

The Pope has addressed an Encyclical to the Bishops, thanking them for their congratulations on his 25th anniversary. The Italian Government has confiscated 5 monasteries in Rome on the plea that they are needed for public uses. The municipality of Rome have collected £4,000 for a monument to commemorate the union of Italy. The rumor of Garibaldi's death is untrue; he is so much better that he has dismissed his physicians from Caprera. The Mont Cenis tunnel is to be opened to traffic by Sept. 15th.; it is the greatest work of the kind ever attempted, having taken 14 years to complete (1857-71) at the rate of 10 feet boring per day, the total length being 8 miles English. A festivity is to be held at the Vatican on Aug. 23rd to which the renowned hestorian Cesare Cantú has been invited, to pronounce a discourse; several ladies will take the occasion to present His Holiness with gifts for distribution among poor parishes. Victor Emmanuel left Turin for Valdieri.

Some alarm prevails in Germany about the advancing cholera. At Konigsberg there were 62 cases, 22 fatal, in one day. Some cases have also occurred at the frontier town of Gumbinnen. The *Neue Kreutz Zeitung* says that the question of the Danubian railways is in fair way of settlement between the cabinets of Berlin and Bucharest. It is said the conference of the Emperors of Germany and Austria at Gastein has reference to this matter, or to the Neo-Catholic party. The composer Gounod is going to open a musical academy at London.

Gustave Dore is still in London, occupied his new English work. The Prince and Princess of Wales visited him at Westminster Hotel. Mdlle. Patti, in Campana's new opera 'Esmeralda,' at Covent Garden, has had the greatest ovation in her life. The new Opera-house at Paris is being rebuilt, and £24,000 is devoted towards it.

The preparations for the coming Exhibition at Vienna are on the grandest scale: the Palace will be crystal, covering, with the annexes, an area of five square miles of the Park, one end resting on the Danube. The Strasbourg library is being renewed; it has already 120,000 volumes, including 40,000 from the University of Konigsburg.

Affairs in Algiers are improving: the French have three million francs of the new war tax, but the inhabitants of Medeah still offer resistance. The Beni-Yalas tribe, having been routed in three encounters, and driven to the mountains, has submitted. Some of the northern tribes are still in revolt.

Duc de Brogeli, French Envoy in London, has returned to Paris on leave, and opposes a prolongation of supreme power to Thiers. The negotiations between Versailles and Berlin for the withdrawal of all the Prussian forces do not appear so favorable as at first.

M. Quertier has started for Gastein to confer with Bismark on the matter. Three of the Communist leaders are condemned to death and have petitioned for their lives to be spared. The Municipality of Paris waited on M. Thiers to ask the government to remove from Versailles to the Capital, but the President replied he would leave the matter to the Assembly. Thiers insists on the immediate dissolution of the National Guard throughout France, and the creation of a regular army 500,000 strong, to guard against contingencies. The expenditure for 1872 will probably lead to warm discussions. There are 33,000 Communist prisoners at Versailles and Brest.

King Amadeo is going on well in Spain, and lives quietly at La Granja taking his morning walk in knickerbockers and colored stockings. The Ministers have effected reductions of 500 millions (£5 millions) in the estimates. An amnesty will be given at the end of August. Prince Humbert has been everywhere well received. His brother, the King, gave him a grand banquet at the Escurial. The review of 25,000 men was a failure. Olozaga returns as envoy to Paris.

Advices from China announce the demise of His Excellency Hu-Jon, the first Mandarin and Prime Minister, who has long been the sworn enemy of English and other foreigners. It is hoped the policy of the Celestial Empire will now be more favorable to Europeans. Some excitement prevails through China about the new taxes. The American squadron destroyed the batteries of Kang-Hoa in the Corea, for insults done to the U. S. flag.

Disastrous accounts still come from Persia, although the Persian Minister at London contradicts them. At Fabretz 200 deaths daily from cholera and the inhabitants fled in all directions, carrying terror in their path. The famine in the South continues. At Ispahan 27,000 people had died of hunger; at Khorassan one-third of the population. At Mazanderen the rice crop was lost and cattle-plague was raging.

THE MARKETS.

Money continues very abundant in England and the Continent. The markets for River Plate produce are every day more animated.

Liverpool—New rise in wool, buyers taking up everything to meet the continuous consumption. Montevideau washed and unwashed are in good demand; no stock. Better classes of Buenos Ayres are very saleable. Any arrivals of Cordoba, Santiago, S. Luis or Mendoza would also find instant purchasers at new rates. Sheepskins are in much request at high prices, perhaps even above those of the auction sales. Fine prospects for all arrivals.

Havre—Hides maintain a good position, business brisk, and everything indicates another rise. Wool sales this week, 126 bales M. Videan greasy at 2fr. 10c., and 45 B. Ayres at 1-77½ to 2fr. Of sheepskins 60 bales Montevidean at 80 to 1-22½. Arrivals—2,700 bales wool and 15 of sheepskins per Tycho Brahe and Montezuma.

Antwerp—The rise in wool prices over May sales is still preserved, and common wool, especially, is in great demand, as well as all kinds of B. Ayrean fine or in good condition. Sales, 26,000 bales; stock, 6,000. Not much doing in sheepskins; stock, 143 bales. In saladero hides a rise of 3 or 4 francs; stock small, owing to the heavy transactions: 5,000 Uruguay to-day at 79 fr., but some other cargoes offered at same price have not yet found buyers.

LATEST TELEGRAMS.

London 25th.—Berlin telegrams say that the French Government promise to dissolve the League for recovering Alsace and Lorraine. Difference of opinion prevails between Thiers and the Assembly as to the immediate dissolution of the National Guard. In yesterday's debate Ducrot's amendment was carried, to make the dissolution gradual.

Madrid 26th.—Prince Humbert starts for Lisbon on the 28th.

Berlin 25th.—The Emperor and Empress of Brazil have arrived.

Brussels 25th.—The rumor of cholera at Antwerp is false.

London 26th.—Cholera is at St. Petersburg, and causing victims at Dantzig and Konigsberg. The Paris journals complain of the condition of affairs, as the state of siege will not be raised till the National Guard be dissolved.

Paris 26th.—Much sensation in the Assembly at Thiers offering to resign. His prolongation of power will be voted unanimously, but he is vexed about the National Guard question. Baron Arnim is expected to-morrow touching payment of the indemnity and the evacuation of 4 departments around Paris. The rumor of riots at Lyons is contradicted.

LATEST FROM U. STATES.

A petition from 22 leading capitalists of New York to the French Government prays that the 33,000 Communist prisoners may be sent to the United States, where the Pacific Railway Colonization Co. will settle them down as colonists in Lower California, giving each person 30 acres free on his arrival and 50 more after three years spent on the land. The Company have a capital of 35 million dollars and a territory of 47,000 sq. miles (as large as England), with a coast-line of 800 miles on the Pacific. The climate is like that of Southern Italy and produces the same kind of fruits. The colonists would be allowed to choose their Government. The Colorado Colonization Company have also applied to the same purpose, and so has the Argentine Government, perhaps with a view of colonizing the Gran Chaco. It seems the French Government incline most favorably to M. Poston and the Colorado Company, as offering most advantages to the unfortunate prisoners.

The Washington Treasury report shews that the receipts of revenue for the half-year ending June 30th were 383 millions, and the expenditure only 292 millions, shewing a surplus of 91 million dollars; with the sum and a balance from last year the Minister redeemed 121 millions of the Public Debt.

A great Italian 'fiesta' took place at San Francisco.

Admiral Rodgers found the Coreans defended their batteries bravely, till carried by American marines at the point of the bayonet; 240 Coreans were killed in one redoubt. The Americans had 3 killed and 5 wounded in taking 3 forts at Kanghoa. The Coreans are a fine robust race, very different from Chinamen. Admiral Rodgers asks the United States Government for reinforcements of 5,000 men in gunboats, to go up and attack the capital: otherwise his position will be critical, as the Chinese may help the Coreans.

A revolution has broken out in Mexico, at Tabases, and the provinces of Puebla, Oaxaca, and Potosi, seem to join in the movement. The election for President resulted thus—

Diaz	.. .. ..	1,982 votes
Juarez	.. .. ..	1,963 do.
Lerdo	.. .. ..	1,366 do.

But as this amounts to no election, it is thought Lerdo's party will join Porfirio Diaz, and give him the necessary majority. Meantime Juarez tries to hold his ground by bribery and intimidation, although the United States' papers advise him to give in quietly.

THE SALE OF THE FLAG-SHIP.

The flagship of the Argentine navy, the Guardia Nacional, has anchored in port, to be sold in a few days by auction. The vessel is one of the oldest, of what is termed the Argentine squadron, and has in her day seen much active service. The officers of the Argentine navy view with regret the auction sale of this glorious old ship, and through the columns of our colleague the *Tribuna* a very feeling appeal has been made to the Government to spare the vessel. We fully agree with our navy friends that the long and valued services of the Guardia Nacional entitle her to more consideration, and that not even if the Treasury were without a copper and the whole National Administration about to be walked off to the debtors prison, should the hammer of the auctioneer ring over the quarter-deck of the flag-ship. It is difficult even to imagine that there could be found a foreign or native auctioneer who, for three times the ordinary commission, would knock down the very flag-ship of the nation. We answer for Bullrich that he would rather knock down the bidders who would attend such a sale, than the ship, if called to such an auction.

The Guardia Nacional in the morning of her existence in these waters was known as the Royal Mail Steamer Camilla, and carried mails, passengers and specie for many, many years between Buenos Ayres and Rio Janeiro. When declared unserviceable as a mailboat she was ordered to be sold, and a miserable republican economy for the trifle of 45,000 pats. claimed her as the flagship of the nation. Twelve years and four months ago she hoisted the Argentine flag, and under the command of Major Michel Soler rendered valuable services in the eventful campaign of Cepeda. After the conclusion of that campaign she was sent up to Concepcion del Uruguay with the peace committee on board.

The cannon of Pavon echoed through the Plate. Murature hoisted his pennant on board, and the old ship figured gloriously in that war which gave to this country its present form of Government. An epoch of peace now followed, but the old flagship was as useful as ever: she swept the rivers and held the supremacy of the Plate, although the truth be told, there was none to dispute it.

When the first great industrial enterprise of the Republic, the Central Argentine Railway, was begun, the Guardia Nacional carried up and down the President and his Ministers for the occasion.

Soon after, the Paraguayan war broke out; the decks were cleared, the guns run out, and the brave Murature prepared for action. He it was who carried up Paunero and his troops to re-take Corrientes; and when the Paraguayans shut the river at the Tres Bocas, the brave old flagship fired the first gun over their heads to let them know that there still trod on an Argentine deck sailors who love the flag they serve, and would perish for it.

At the Trafalgar of the Plate, the battle of the Riachuelo, the Guardia Nacional took no part, being absent on the occasion; but when the doomed Paraguayans outflanked the squadrons on the Correntino banks of the Paraná, and ran up batteries at Cuevas, the old flagship, with sullen determination, ran up alongside the Paraguayan guns, fired, and went on with a cool heroism which should endear every plank of the vessel to the memory of the most economical Argentine.

At Paysandu the Guardia Nacional took off the remnant of that brave garrison, which, with Spartan spirit, fought against all odds under the command of the hero Leandro Gomez, and all through the Paraguayan war the flagship played a conspicuous part, honorable to the flag she bore and the tars who formed her crew.

Peace came, and she was thrown aside; but the breaking out of the E. Riano war again called her out; and, perhaps, if we scrutinize the history of this war we shall discover that this now condemned vessel lent more valuable service to the people of Entre Rios and the Government of this nation than all the other elements called into play to put down the revolution.

There is hardly a public man in B. Ayres who does not know every cabin on board the Guardia Nacional. There is scarcely a family in Gualeguaychu or Paysandu that has not walked her deck. There is not an officer in the R Plate, from the middy to the admiral, who does not love this old ship. And if our voice can be of any service to stop the auction, Argentine mariners, you have it. Better scuttle the poor old vessel at her moorings in the Tigre—better sink her beneath the weeping willows of the Capitan, than haul down her colors and run up the auctioneer's flag at her peak.

We protest against the sale of the Guardia Nacional unless her flag, flagstaff, and Murature pennant be sold with her. With these appertenances she may be put up at auction, and perhaps the venality of the age will not be overtaxed to find a bidder.

THE BOLIVIAN RAILWAY.

MR. HOPKINS' SCHEME.

IV.

Choice of the Railway Route, and the Reasons for it.

(Continuation.)

Let us turn now to the question of distances:

From the Villa Occidental to the navigable waters of the Pilcomayo, at port Magariños, we have seen that the distance is only 285 miles in a straight line, from which it is supposed, owing to the character of the surrounding country, that the railway will have to vary but little [a]. Thence to the neighborhood of Potosi by the Pilcomayo, and to within 30 miles of Tarija by the Pilaya, the navigation is sufficiently clear for light draught river steamers of 100 to 200 tons burthen, to serve the commerce of Bolivia for some years, the which, when turned in its full vigor to the new outlet, will soon build the railway to the very heart of its population.

From Port Magariños to	Tarija	is	200 miles.
Do	do	Sucre do	300 do
Do	do	Potosi do	360 do
Do	do	Cochabamba	443 do
Do	do	La Paz do	515 do

Distance from La Paz to Villa Occidental	800 miles.
From Villa Occidental to Buenos Ayres	1,047 do [b]
Total	1,847 miles.

Of this distance some thirteen hundred miles are by water, and to Sucre only 285 are by land.

As for La Paz, it is only 25 miles from the navigable waters of Lake Titicaca—the cradle of the Incas—and by the navigable Desaguadero down stream to Lake Paria or Pampa-Aullagas [c], are 262 miles, to within 130 miles of Potosi. But 40 miles up the Desaguadero is found Oruro, only 15 miles distant from its course, and this city is the centre of the inland commerce of Bolivia [d].

With the main outlet to the east finished, we thus see how easy it would be for Bolivia to complete this extraordinary chain of internal communications, for then she would have that credit in the pecuniary markets of the world which at present is absolutely wanting to her.

Let us now consider the land route as hitherto travelled from La Paz to Buenos Ayres—

From La Paz to Jujuy	500 miles.
From Jujuy to Cordoba, Railway survey	585 [e] do
From Cordoba to Rosario, Railway survey	247 do
From Rosario to Buenos Ayres, river	272 do
Total	1,604 miles.

Of which 1,332 miles are by land [f], much of which distance is, and will ever remain, through tracts of country destitute of water and fuel, and in all respects inhospitable [g], whilst every mile of the route here proposed is eminently favorable for the residence of man. But even were the two routes equal in this latter respect, the expenses of thirteen hundred miles of railway carriage against the same distance by water are as four to one. No doubt arises that this railway would cheapen freight from Bolivia, in comparison to what it costs at present. But it would not do so sufficiently to open an important trade, and if this has to wait until the capital is found to build such a road to the centre of Bolivia, it is certain that some generations yet unborn will pass away before its completion. These remarks upon this route touch only upon Bolivia. Internal communication for the Argentine people is a necessity of such a nature that it must be brought about, no matter the sacrifice, for it is the only way to correct the errors of their ancestors. As for the noble old American, William Wheelwright, who commenced, and would continue, the Central Argentine Railway, only future generations will fully appreciate the good he has already done.

V.

Commercial Considerations.

The population of Bolivia is variously estimated from 2,000,000 to 2,800,000 souls. The former figure is named by Dalence in 1846. Probably 2,500,000 is not far from the mark. But at all events it is greater than that of the whole Argentine Republic. The secluded position, cut off from the sea on the one side by the impassable Cordilleras, and on the other as yet by the wild Chaco, leaves it without external commerce, and consequently without credit in the markets of the world.

But this population is not a wild nomadic race from which no civilizing tendencies ever sprung; it is an agricultural and mining people, destined some day from the very nature of the splendid country it inhabits, to wield more than ordinary influence upon surrounding nations. Of these 2,500,000 people, only one-fifth live in cities, and the remainder in the country. Of the cities, only three with the insignificant population of 12,000 souls, belong to the Amazonian water-shed. All the rest naturally fall into the Plate water-shed, in favor of which is found every comparison of climate and aptitude for the habitation of man.

On the eastern side of the Eastern Cordillera, the climate is uniformly warm. The rainy season commences in November, and continues to April There are here no frosts or snow, and all the varieties of climate consist in the gradations of heat, and in humidity and dryness. It is this part of Bolivia which possesses the finest climate. The province of Cochabamba is situated within this region (a).

Of the productions of Bolivia and its natural wealth what shall be said? Simply that it is the most favoured spot of the whole earth, for this comprises everything. Its wealth in mines of the precious metals, in dye stuffs, in medicinal herbs and gums in sugars (b), cotton, coffee, cacao [chocolate], tobacco, rice, spirits, all necessaries to civilized man, is simply fabulous; and some of them it alone produces. And yet, amidst all the favors of Providence, it has been steadily going down in the scale of the peoples until its poverty to-day is frightful. What, then, has been the cause of this? Bolivia has been no worse than its neighbors of common originin, the matter of civil commotions or public and private morals. Dalence gives the solution:—"When all the world was on an equal footing, working by hand without machinery, Bolivia was not so unfortunate; but now that every nation except herself can use machinery, her state is to be pitied. The loss of the gold and silver sent out of the Republic could not be regretted were they exchanged for useful things capable of creating and fomenting the support of our commerce—such, for instance, as the purchase of engines and steamboats, spinning and weaving machines. But we have exchanged them for crinolines, rosaries, and tinsel for images."

The present cost of freight to trade centres of Bolivia is $200f per ton. The route is through the Straits of Magellan. Landed through the surf on the coast of Peru, or at Cobija,—the only sea port of Bolivia, distant from La Paz, across the Desert of Atacama, 232 leagues (c)—it is cut up into small parcels, placed upon the backs of mules, then carried 14,800 feet into the air over a double range of the Andes, and finally reaches its destination, after being damaged in its rough voyage of five months (d). In former times the cost of one carreta of less than two tons [150 arrobes] from Buenos Ayres to La Paz was $650f. (e).

The roads also are frightful, which force the loads to be very small, and freight augments the value of the products of the country [Jesuits bark, for instance] to a degree which the fertility of the soil cannot lessen. La Condamine, who perfectly knew the inaccessibility of our mountains, said, "It cost me more to travel the 50 leagues which span the Andes than to travel 3000 leagues by water." Freights consume, together with imports, at least one-half of what nature produces (e). Church says justly, that if Bolivia could be placed a distance from Europe of 150,000 miles, or six times the circumference of the globe, across an imaginary ocean, the cost of exchanging products with her would be less than it is to-day *via* the Cordilleras of the Andes.

One part of the import and export commerce of Bolivia takes the road of Arica, although it is now impossible to state its exact importance; another part passes through Tucuman, Salta, Jujuy, and Tarija, whose expenses are not less than those to Arica; and we believe we are near the truth when we calculate the total amount of the freights of these different roads at $6,000,000f. Another author values them at $5,000,000f, to which must be added the maritime freight from Cobija to Europe, at 21 dollars gold per ton,

"Imports to Cobija in 1846 amounted to $2 457,981, and exports with small difference to the same sum. The difficulty of transporting anything across the deserts of Atacama and the Andes, deprives Bolivia of the power to send her products to market by such a road, therefore she cannot import other than a very reduced quantity of European productions. According to Leon Favre

Freight from Europe to Cobija per ton is	$ 21
From Cobija to Sucre	256
Total,	277

"Imports by way of Cobija to Sucre and to the south and east of Bolivia, amounted to 15,941 tons; therefore, the enormous freight of $4,000,000 is charged upon them, whereas their value was no greater when disembarked from the vessel which brought them to such an inhospitable shore."

[a] It is presumed that the inundations of the Pilcomayo will never exceed four feet over the lowest 'cañadas' on its shores, which, as the declension of the River Paraná, of about four inches per mile, would not require 12 miles of earth-works above highest water.

ATROCITIES IN THE BANDA ORIENTAL.

Every mail from the Uruguay brings us fresh advices of the wreck and ruin going on in the unhappy Banda Oriental. Mr. Lopez Cadenas, an estanciero of Santa Lucia Grande, gives the following shocking details of the conduct of the Government troops in that neighborhood:—

On Thursday the 14th inst. a Government officer, with a few soldiers, presented himself at my estancia house, called 'Vegiga,' and stated that they had orders to take away the flock of sheep at the house. The mayordomo protested, stating that if they wanted meat he would part out the fattest, but the flock in general was thin, and as for the lambs, it was a shame to think of driving the poor things, as they were too young to travel far. The officer replied that he cared nothing about that, inasmuch as for him the flock was too small, and he even wanted more sheep. The mayordomo then asked for a receipt for the flock, which the officer declined to give, but stated that he served under Commander Meliton Muñoz. He swept off the whole flock.

The majordomo mounted and rode over to see Commander Muñoz, who, to his astonishment, stated that the officer in question had no such orders from him, nor did he belong to his troop, but to Major Garridos'. The majordomo tried to find out this Major Garrido, and lost much time looking him up, but failed to find any such party, and had to give it up as his presence was required on the estancia. This shows the utter disorganisation of what are termed the Government troops, and the perfect anarchy that reigns. Any subaltern officer wearing the Government uniform can ride up to an estancia and sweep off an entire flock of sheep in the name of Auxilio, without even going through the formality of giving a receipt. Death is the penalty of refusal. The same estanciero speaks of the farce of the Government publishing decrees about protection to property when their own troops are sacking even the puestos, burning down ranchos to make their 'asados,' and destroying everything before them.

The state of the Banda Oriental is truly deplorable.

EDITOR'S TABLE.

The 'Zaripha' arrived at Montevideo on Wednesday, bringing the European news by the French packet Gironde which she left at Rio. The latest dates are Lisbon 28th ult. The commercial intelligence continues favourable for River Plate produce, especially dry hides which have advanced in price; Buenos Ayrean and Montevidean wools continue in active demand and at advanced prices; in fact everything is going up. The political news is not encouraging though far from being alarming. Russia continues her preparations for war on such a large scale that the Prussian press has taken the matter up. The French Assembly seems near a state of dissolution so stormy and unproductive are the debates, M. Thiers had threatened to resign unless the Assembly came to an understanding as to prolonging his powers; it is believed, however, that the fear of renewed anarchy will smooth all difficulties and result in a complete victory for the Chief of the Executive. The International continues to give trou-

ble at Berlin, where the carpenters have struck for 25 per cent. increase of wages and a sensible curtailment of their hours of labour. Cholera is raging in St. Petersburgh and many of the cities in Russia. In Austria the elections had awakened the religious prejudices of all sects, and promised to be very stormy. As the Gironde was weighing anchor at Lisbon a report was current that Garibaldi had succumbed to the affection from which he had so long been suffering. The Gironde arrived at Montevideo on Wednesday evening and is expected in port this morning.

The gravest doubts exist in the public mind as to the accuracy of the report of the Council of Health respecting the rumored yellow fever case in Calle Artes. Drs. Rawson and Castillo have expressed a decided opinion that the case was one of yellow fever, and the public are disposed to believe them, as the Health Council have not condescended to state what the cause of death was, though hazarding the assertion that it was *not* yellow fever. Looking at the case in the worst light, as one of yellow fever, it need not serve to alarm the population, but rather act as an incentive to the adoption of every available precaution. The programme of the new President of the Municipality is very encouraging, and we have reason to believe will be carried out to the letter. We continue to hold the same opinion we expressed some months ago, viz.: that even should numerous cases of yellow fever occur, unless the gross blundering and apathy manifested last summer by most of the authorities be repeated, we shall have no epidemic in Buenos Ayres this year. The new Lord Mayor intends to sweep the 'conventillos' clear of their surplus inmates; let him beware of doing so till he procure suitable houses somewhere for those ejected from them. We should have had no epidemic last year but for the insane act of turning the inmates of infected 'conventillos' adrift all over the city.

Yesterday, the vernal equinox, resembled a summer rather than a spring day. At noon the thermometer stood within a few degrees of 'summer heat.' Such charming weather, however enjoyable for the denizens of cities, is destruction at present to the parched-up country, from which we continue to receive the most lamentable accounts of the effects of the 'seca.'

The city of Montevideo witnesses this morning the execution of the four murderers of Dr. Felice Angeli. There were five men tried and convicted, but one escaped. One of the wretches brutally refused to see his wife and children who wished to take a last farewell of him.

The Emperor of Brazil when on the point of leaving Dover for France was waited on by a deputation of capitalists and engineers who are willing to undertake the canalization of the River Uruguay, a gigantic project in which Dom Pedro takes the liveliest interest, as it will put an enormous tract of Brazil in easy communication with Montevideo and Buenos Ayres. His Majesty assured the deputation that the scheme should have his warmest support.

The Montevidean Government still seeks—with microscopical chances of finding—a way out of its financial difficulties. Dr. Herrera y Obes has submitted another bill to the Executive which he hopes may replenish the Treasury, if made law. The scheme, which is branded with the late Duke of Wellington's synonym for bad security, high interest, proposes '10 per cent' of same and any amount of amortization as by law of 17th June, on *six millions* of dollars, the amount now proposed to be raised, being an increase of fifty per cent. on the sum asked for in the last bill. The *Telegrafo* says the project finds no greater favor in commercial circles than its predecessors. The premium on gold has touched 15½.

Commercial advices from Rio announce an attempt to circulate a quantity of Mexican dollars as ounces, the similarity of coinage and weight facilitating the fraud.

The Cordoba papers announce the death of Doña Eladia Echenique, sister-in-law to General Antonio Taboada. She died of the same disease as Don Manuel Taboada.

The Province of Corrientes has sent no fewer than 105 specimens of its plants and trees to the Cordoba Exhibition, accompanied by an explanatory manuscript pamphlet by Don F. Roibu.

We have dates from Concepcion to the 20th inst. A Beneficencia Society has been installed in that city, Sra. Doña Cármen de Miguez 'presidentess.' The small-pox is very bad—14 deaths from it daily; cases are recorded of whole families being carried off by the disease in a few days.

The days of Brick and Mortar are in peril. The latest, cheapest, and most comfortable dwellings are those constructed of iron now being imported by Mr. Dawney, C.E. of the Water Works. When in the B. Oriental lately, we had the pleasure of inspecting the dwelling of Mr. Newman, C.E. of the Montevidean Water Works, which is raised on this system; and a more comfortable or convenient house we never entered. Messrs. Braby, of London, supply these houses to all the colonies, and they have been found to answer admirably in all climates and weathers. They are made of all sizes, to suit the purses and numbers of families: First at £60 sterling there is a four roomed snuggery on the 'love in a cottage' principle, without any nursery accommodation, suitable for young couples about to begin the world on what are accurately called limited means, or in case of urgent necessity, for bachelors of moderate tastes and habits. Then for £150 or £200 a larger house can be purchased, and for £350 to £400 a dwelling fit for a prince. These houses are of iron, lined with wood, and can be procured from England in a couple of months. There is no trouble in putting them together, as unskilled workmen are quite equal to the task.

The Rev. Mr. Davis has just returned from a trip to the camp, and purposes shortly leaving for Montevideo. The object of this gentleman's sojourn in the country was to study the mission system as established in Buenos Ayres, with a view to extend the same to the Banda Oriental. The Rev. Mr. Davis on his return to Montevideo purposes making a trip through the Banda Oriental camps.

Dr. Tejedor, Minister for Foreign Affairs, has received very important despatches from the Argentine Consul in Montevideo, announcing that the Blancos are determined to carry on the war, and have a quantity of arms and some cannon concealed in the saladero Santa Candida, and are trying to get them across the river. At Concepcion, Colon, and other places, large numbers of Blancos are awaiting an opportunity to cross the river.

The Celestial Empire has lost its Dr. Velez. The last China mails to England carried intelligence of the death of Hu-Jen, First Mandarin and Prime Minister to his Imperial Majesty the Emperor of China, Cousin of the Sun, Moon, and Stars, &c., &c. Hu-Jen was a statesman of the genuine Velez type, hating foreigners, especially Englishmen, because he knew nothing of their civilization, and obstinately refusing through life to travel or become enlightened respecting other countries. For the last twenty years Hu-Jen was the prime mover in all massacres and persecutions of Europeans in China.

The Spanish Government has resolved to abolish its legations in all the South American republics; in all the Ministers will be replaced by Consuls-General with ample powers.

The French mail brings the startling intelligence that the Argentine Government lately applied to M. Thiers for the 33,000 Communists arrested for complicity in the late Paris atrocities, with the view of colonising the interior. Nothing was known here of this singular application to the French Government, and the news was much commented on yesterday. The Communists are not so bad as they are painted, but any importation of them 'en gros' would necessarily include a number of very 'black sheep' of a breed this country is already overstocked with.

Jose Alvarez, a Blanco leader, is known to be in the neighborhood of San Fernando, recruiting for Aparicio. Some of his desperadoes lately murdered five Italians on one of the Tigre islands, because the poor fellows refused to join them.

The Gironde brings intelligence of a terrible scheme the International is known to be hatching. This redoubtable body lately held a meeting in Barcelona, at which it was resolved that Spain should be ravaged from end to end, all the churches and factories burned, and society overturned. The Kings of Italy, Spain, Belgium, and Portugal, and M. Thiers have all been condemned to assassination by the International. It is believed that Spain has been chosen for this desperate attempt as being the worst organized and most defenceless country in Europe, and where the authorities will be least able to resist the uprising of the proletariat.

A kind of medical joint stock company has been formed by Drs. Mallo, Golfarini, Wilde, and Ardenghi. For 50,000 paper dollars a month and $25 currency a visit, these philanthropic gentlemen propose to the Municipality to take under their special charge the poor of the city, all the hospitals and lazzarettos, and those houses where 'les filles de joie' most do congregate. The project is a first rate one—for the medical promoters.

Dr. Velez came down on the Central Argentine Railway again in Congress on Wednesday. 'L'appetit vient en mangeant.' His Excellency expressed his belief that the Central Argentine line was everything that was bad in a railway sense; but as his experience of railways is remarkably limited, the public may not attach as much importance to this opinion as they would had Dr. Sarsfield seen a little more of the 'outer barbarians.' Dr. Sarsfield's vagaries are becoming tiresome in the extreme, and it speaks little for Congress that they have not yet been rebuked in the House as they deserve.

It is thought that the new Municipal law will pass the Chambers without opposition. We have already expressed our opinion on this project, which is defective in every way, and will leave the Corporation as much under the thumb of the Provincial Government as ever.

The inhabitants of Cordoba got a fright on the morning of the 16th inst, when a smart shock of earthquake, lasting a couple of seconds, was felt in that city.

Seven Neapolitans have been arrested for the barbarous murder of the parish priest at Tala B.O., and his sacristan. Both victims were aged men.

Small-pox is spreading in the camp towns. At Exaltacion de la Cruz it has carried off several victims.

An experimental trial of preserved meat takes place to-day at the Belgian Consulate at half-past three o'clock.

An extension of five months beyond the contract time has been allowed to the concessionaires of the Rio Cuarto and San Juan Railway for the completion of the line.

Artesian wells are again about to be tried in this city. Sr. Laponjade has applied for a concession to sink and work them within the city boundary. The scheme will be presented to the Legislature in a few days.

The earthquake at Arequipa on the 17th of last month was a very serious disaster. Several houses fell, and many people are said to have been killed. The earth is said to have oscillated so violently that it was impossible to stand upright. In some quarters doubt is thrown on this news, and it is said the shock was only an ordinary one, and had not such disastrous effects.

We hear from camp friends that the prolonged drought is putting a damper on the large dealings in capones and other produce which we had to record last week. It is impossible to sell or let land in many districts, owing to the uncertainty as to the future which the 'seca' gives rise to.

It is stated that the Boca Railway will be opened to Quilmes by the end of the year. The earthworks are being commenced beyond the Riachuelo, and 700 tons of railway iron have just arrived, besides two more cargoes daily expected. The line will commence running before any bridge can be put up, transferring passengers across the Riachuelo to the Peña station, or perhaps to Tres Esquinas.

A fearful pantano has existed for some time in front of the Provence Hotel, almost as big as the hole which engulphed Quintius Curtius. It is not stated how many carts etc. have disappeared in it, but Mme. Boch is willing to repair it if the new Lord Mayor will permit her.

'A would-be settler,' who enquires respecting the Alexandra colony, Sta. Fe, is informed that on sending his address to No. 42 Calle San Martin he will receive a copy of the pamphlet giving all information to settlers.

Our colleagues are advocating, and with every reason, that the port authorities should devote more than ordinary attention to enforcing the quarantine regulations at present. As a proof of the value of these, we may mention that some of the passengers by the Gironde, looking very yellow, were seen about town yesterday, having come up in the river steamer from M.Video. The Gironde will, of course, be subjected to the strictest quarantine when she arrives this morning. What a farce!

It was facetiously reported in the Government House yesterday that Dr. Velez is about to propose an amendment to the Custom House Law, charging 20 per cent. extra duty on Irish linen, butter and porter—and 25 per cent. additional on all English sovereigns imported into the country.

ON 'CHANGE.

Sept. 21st, 1871.

Ounces	400
Sovereigns	122½
Patacons	25
National Bonds	72

The Bond Market ruled firm to-day, and prices for cash rose to 72. The sales for cash amounted to 17,500 For 30th September, 7,200 at 72½, for October 31, 10,000, at 71½. The state of the Bond Market is at the moment critical, if the bulls call for all the bonds bought, then the bears will be cornered, and if on the other hand the bulls re-sell, and are unable to take up their bonds, then the market will give way to an extent perhaps not anticipated. As money rules very easy, and the banks are doing little, the probabilities are that the bulls will be in a position to call for their bonds, and take them up.

Exchange ruled dull: a few bills were passed to-day at 50½, but takers pretend 50½.

In Argentine Bank shares, 30 sold to-day at 7½ ex. dividend. Roads and bridges stock, 2,000 sold at 86. Municipal bonds at 88, buyers.

Mr. Samuel Wheelwright, of Rosario, was welcomed on 'Change to-day. He reports everything going on very favorably up there.

Some of the passengers per French mail arrived in town to-day. The Gironde is expected in the morning, when she will be at once put in quarantine.

The telegram from Montevideo to-day gave the following—

Flamsteed from Liverpool in.
Paper 15.
Sovereigns ⅛ prem.
Home Debt 69.
7000 arrs. wool, new clip, sold on contract at 37 gold.

Two cargoes of pitch pine sold to arrive at 47.

The sale of 2000 sheep, picked, at 45 was announced to-day.

Advices from Entre Rios report large purchases of wool in that Province for account of a French house in Buenos Ayres. It appears that the house in question will be the largest consignees of Entre Riano wool this year.

The final discussion of the Banco Hipotecario bill comes on to-night at the Provincial Chambers. The opinion of the House on the bill is already known, and the brokers look forward to the law being promulgated this month and the new department opened in the bank in the month of November. This Banco Hipotecario project promises to be of immense convenience to property holders, and it is thought will work well. A similar institution in Chile has given the most splendid results, and under the able management of the board of directors of the Provincial Bank will doubtless give equally beneficial results in this market.

The news by the French packet was unknown in the produce markets this morning, but at an early hour was known on 'Change. River Plate wools, and in fact, all wools are in the most active demand in the European markets. Buenos Ayres wools have risen 10 to 15 centimes, whilst the rise in Montevidean wools is even greater compared with May prices. Hides and tallow are also up, and in fact all River Plate produce is in the most active demand. Gold is superabundant in every European market. Discounts the same, and River Plate securities at their fullest quotations. It would be difficult to imagine more favorable news by a European packet than that brought down from Rio by an English steamer in anticipation of the mail. Last evening, as the steamer was leaving Montevideo for Buenos Ayres, the Gironde was entering. She brings dates from Lisbon to 28th August, and from London by telegram to 27th.

Sheepfarmers who have already contracted for their wool at high prices, can now see the value of our remarks published a few weeks past. In presence of a strong rising market, farmers unless for special reasons, should prefer selling in the market here to contracting for its delivery outside. If the farmers take due care of the fleeces in the shearing, skirt them and keep what is termed the inferior wool apart, they will find their trouble amply repaid by enhanced prices. The result of the wool washing experiment at the Sociedad Rural yesterday was attended with the most signal success. Some of the principal farmers of this province were there and witnessed the experiment All who were present have determined to avail of the experiment—so we may look forward to close on a million of arrobas of washed wool this season. Major Rickard, who has the specific, will, we understand, be able to supply a pretty large number of farmers: once proved a success—and there is an end to the export of wool in the grease. The gain to the country, and particularly to the producer, will be so large, that good mestiza sheep at double their present price will be cheap.

Owing to the 'Feria' declared last April by Government and the closing of the Custom-house, a question arose between the consignees of vessels and the Collector, as to the almacenage charged on vessels entering port during said 'feria.' Hitherto it has been the custom and the rule to compute the almacenage from the day the ship entered, but owing to the special causes above mentioned, the Government, on application of the Collector in the case of the ship Prisca, has thought proper to establish the rule in all such cases that almacenage is only chargeable from the date of the entry of the vessel in the Custom-house. The Government has also by decree changed the rule at the Custom-house respecting the responsibility of the two 'guarda almacenes,' or storekeepers: hitherto only the first storekeepers were liable, but now half of the fines collected are to be paid to the second storekeepers, who are to be responsible for all goods delivered to them. This is a very important change, and reflects much credit on the National Minister of Finance.

Messrs. Ortega and Sons are about to construct a saladero at Zarate, and have applied to the Government for the necessary permit.

There is great movement now at the railway stations each morning. The first train of the Western Railway is always crowded with passengers; yesterday the train took troops outside.

The committee of Congress to whom the budget was referred have suggested the suppression of all Argentine Legations in Europe: also the suppression of emigration agents abroad. Respecting the latter, the minister opposes the committee, and insists upon the necessity of these agents. Dr. Rawson moved that the government be authorized to subscribe to the Central Argentine Land Company. Minister Velez opposed in the very bitterest terms, stating that the Central Argentine Railway was the worst company on the face of the earth, and a disgrace to the preceding administration, and that if Congress thought proper to subscribe to the Land Company, his government would at once veto the 'inciso.'

Messrs. Vernet, estancieros of Mercedes, B.O., have sold on contract the wool of their estancia for the coming clip, at the splendid price of 38½ reales gold, deliverable on the estancia, equal to $101 m|c., and if to this is added freight to Montevideo, and interest on the money advanced, two-third of the whole amount, the price of this wool will come out at about $115 m|c.

Sales in the Plaza Once—

200 doz fine matadero sheepskins			22 rls

ROYAL VICTORIA
LAUNDRY BLUE.

Manufactured by
EHRENSPERGER AND CO.,
London,
And Sold by their Agents in
BUENOS AYRES
To all the Retail Grocers and Store Dealers in this City.

This excellent Blue is made in balls for the convenience of those who use it. There is thus no waste in broken pieces, and for this reason, as well as owing to its superior strength, it is acknowledged to be really the most economica and best Blue ever sold.

It is used, to the exclusion of all other marks by her Majesty's Laundress.

It imparts the most delicate white to Linen, Lawn, Cambric, Muslin, Lace, &c., and it is so entirely free from all impurities, that the most delicate fabrics are not injured by its use, but on the contrary, are vastly improved in appearance.

Every British Storedealer has supplies of this very superior article.

Ladies are respectfully requested to ask for the

Victoria Blue.

TO CAPITALISTS.

Quinta to be Sold or Rented.

IN MONTEVIDEO,
10 Squares from the Paso Molino Tramway
A SPLENDID QUINTA.
It has been lately built, and is of the most durable materials.

THE HOUSE
Has nine or ten rooms, out-offices, kitchen, algibe, posos, &c.

THE GROUNDS
Comprise every description of Fruit Trees, and the entire concern possesses every convenience the most fastidious could desire.

THE SITUATION
Is commanding, and presents to the view a lovely country, intersected by hill and dale.
In fact, the limits of an advertisement are too meagre to give a proper description. It should be seen to be appreciated.

The owner parts with it with regret, having to return to Europe on pressing business.

For further particulars apply D. G., Standard Office; or the proprietor of the Quinta [at Montevideo, Camino do Reducto], will afford every desired information with respect to the Sale.

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103

BUENOS AYRES.

The immense advantages of Accounts Current We now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maná & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in he immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes alorady mentioned, Sundays an holidays excepted.

The Bank will deliver to esch depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. p. a) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds Twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules estabished by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

P. P. Mauá & Co.

M. A. DE FREITAS AMORIM.

The Steam Engine Trials of the Royal Agritural Society of England.

OXFORD, 1870.

The FIRST PRIZES at this Show were again Awarded to Clayton and Shuttleworth, viz.:

First Prize for Horizontal Fixed Engine of 10 H.P.; First Prize for Steam Engine, with Boiler combined.

At the previous trials of Steam Engines, at Bury, 1867, Clayton and Shuttleworth took all the First Prizes for Engines, also a Prize of £15 for Thrashing Machines, and the Society's Silver Medal. Clayton and Shuttleworth have received

First Prizes at all Trials of the Agricultural Society of England, at which they have competed since 1849.

N.B. All the principal Makers of Portable Engines, &c., compete for this Society's Prizes, being the only trials in Great Britain conducted by competent and impartial Engineers, and where the capability and value of each Engine is thoroughly tested by practical experiments. C. and S., therefore, do not compete at any other Shows.

PORTABLE ENGINES, from 4 to 25-Horse Power.
THRASHING MACHINES,
Single, Double and Treble Blast, with Patent Rolled Steel Beater Plates; and all other recent improvements.
Grinding Mills, Saw Benches, Straw Elevators, &c.

Wholesale only.

MARAVILLA COCOA

THE PERFECTION OF PREPARED COCOA,
Sole Proprietors
TAYLOR BROTHERS, London.

Maravilla Cocoa.

No Breakfast Table is complete without this delicious beverage.

The *Globe* says—

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers, discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopaths and invalids we could not recommend a more agreeable or valuable beverage." Sold in packets only by all Grocers, of whom also may be had

TAYLOR BROTHERS,
Original Homœopathic Cocoa and Soluble Chocolate.
STEAM MILLS—BRICK LANE, LONDON.
Export Chicory Mills, Bruges, Belgium.

NOTICE.

MORSON'S EFFECTUAL REMEDIES

Are sold by Chemists and Druggists throughout the World.

INDIGESTION—The popular and professional medicine is Morson's Pepsine, the active digestive principle of the gastric juice In Powder, Lozenges, Globules and as Wine.

CONSUMPTION—One of the greatest results of the chemical progress is the adaptation of the active property obtained from the Pancreas, and prepared as Morson's Pancreatic Emulsion and Powder. It enables the weakest stomachs to assimilate animal fat and oil, so essential to the constitution.

CHLORODYNE—Morson's celebrated Anodyne isnow being supplied to the Public.

GELATINE—The purest preparation of this nutritious agent extant is Morson's.

All the above are carefully packed and shipped to orders, which must be made payable in England.

Sole Manufacturers:
T. MORSON and SON,
31, 33, and 124 Southampton-row, Russell-square, London:

Works—Hornsey and Homerton.

DYSENTERY, CHOLERA, FEVER, AGUE COUGHS, COLDS, &c.

DR. J. COLLIS BROWNE'S
(Ex Army Med. Staff)
CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE that the story of the Defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely, and mean no other than Dr. Browne's.—*The Times*, July 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE

REMEDIA, USES AND ACTION.

THIS INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma, Rheumatism, Neuralgia, Cough, Cramp, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See *Lancet* Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after 18 month's severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [Dec. 1865] that nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered the patient recovered.

Extract from *Medical Times*, Jan. 12, 1866.—"Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not 'supply a want and fill a place.'"

Extract from the General Board of Health-London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

See leading article, *Pharmaceutical Journal*, Aug. 1, 1869, which states that Dr. J. Collis Browne was the Inventor of Chlorodyne; that it s always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer, J. T. DAVENPORT.
33 GREAT RUSSELL STREET,
Bloomsbury, London.
Sold in bottles at
1s 1½d, 2s 9d, and 4s 6d.

FIRST PRIZE FIRE ENGINES.

Shand, Mason & Co.

75 UPPER GROUND-STREET,
BLACKFRIARS ROAD, LONDON,
MANUFACTURERS OF
LAND, FLOATING & FIXED
STEAM FIRE ENGINES,
AND
HAND-WORKED FIRE ENGINES
Of every description and for all climates,
Fire Escapes, Horse and Suction Pipes,
Fire Buckets, Fire Cocks, Hose Reels,
Hydrants, Firemen's Equipments,
And every article connected with the Extinction of Fire.

SHAND, MASON & CO.'S Steam Fire Engines have been awarded all the Chief First Prizes, have been in use by the Matropolitan [London] Fire Brigade for sixteen years, and are found to be the most durable Engines yét constructed, also the most readily managed by inexperienced persons. The generative powers of the boiler are such that at the Preston Trials steam of 1, 0-lb. was raised in six minutes and forty-five seconds.

At the great Competitive Trial of Steam Fire Engines, held at Preston, England, May, 1871, the judges, after a searching investigation, decided unanimously in favour of Shand, Mason & Co.'s engine, which was immediately purchased by the Authorities.

KEATINGS'S COUGH LOZENGES

This universal Remedy now stands the first in public favor and confidence: this result has been acquired by the test of fifty years' experience. These Lozenges may be found on sale in every British Colony, and throughout India and China they have been highly esteemed wherever introduced. For Coughs, Asthmas, and all Affections of the Throat and Chest, they are the most agreeable and efficacious remedy; they do not contain opium or any other deleterious drug, and may therefore be taken with the most perfect safety by the most delicate constitution.

KEATING'S
CHILDREN'S WORM TABLETS.

The great remedy for these disorders in adults and children, can now be administered in the form of a purely Vegetable Sweetmeat, at once agreeable and effective.

Sold in tins and bottles of various sizes.

KEATING'S INSECT DESTROYING POWDER.

The Powder is quite harmless to Animal Life, but is unrivalled in destroying Fleas, Bugs, Cockroaches, Beetles, Mosquitos, and every other species of insect. TRADE MARK.

Sold in packets, tins, and bottles of various sizes

☞ The public are particularly requested to observe, that all the above preparations bear the Trade Mark as herein shown.

Sold by all Chemists and Druggists.

MOLLER'S COD LIVER OIL

PETER MOLLER'S
[Knight of the Vasa Order.]
PUREST COD LIVER OIL.

Free from disagreeable Smell and Taste.

This celebrated Oil, which is made on an entirely new method, invented by Mr. Peter Moller, of Christiana, is now acknowledged by the Faculties and the most eminent Physicians of Europe, to be the best Cod Liver Oil known. It is the only one for which the following Exhibition Medals have been awarded, viz.: 1862 London International Exhibition—The only Medal.

1865, Bergen Royal Society of Norway—The only Gold Medal.

1866, Boulogne International Exhibition—The Great Silver Medal.

1867, Paris International Exhibition—The only Silver Medal heading 27 competitors.

The fact, that it is made under the immediate superintendence of Mr. Peter Moller, at his own Manufactories, at the Lofoten Islands, where it is bottled, sealed, and capsuled, as a guarantee for its genuineness, as well as that it will keep in every climate for years without turning rancid. See Moller's Name and Trade Mark on Label.

REMATES
POR
A. BULLRICH Y Co.

Importante remate de 6000 ovejas mestizas finas.

En la ciudad de Mercedes.

El Lúces 25 del corriente a la una en punto del dia venderemos a la mas alta postura y dinero de contado por orden de un Sr. estanciero,

6000 ovejas mestizas finas en 4 majadas.

Estos animales estan en muy escelentes condiciones, muy limpias, gordas y libres de sarna.

1200 capones mestizos Lecester gordos y muy buenas condiciones.

Los que se dedican a la cria de ganado lanar tiene una buena ocasion para hacerse de buenas ovejas pues esos animales son procedentes de un establecimiento ingles que tiene un nombre ya conquistado entre los creadores del ganado lanar, de donde este establecimiento dista a penas media legua.

Para mas informes a nuestro escritorio San Martin 118.

Su venta se hará en mercados en el potrero del Sr D. Francisco Acuna, las ovejas estarán a la vista desde el dia antes del remate de D. Viviana Bermudes donde podran inspeccionarlos los interesados.

NOTA—En caso de mal tiempo el remate se efectuará el dia siguiente.

NOTA—Al mismo tiempo se venderan los muebles y utiles de labransa.

A. BULLRICH Y Co.

En la Ensenada

De la estancia La Merced en las Lomas de la Ensenada á media legua del puerto, de los terrenos, edificios corrtes etc.

Por óden de su propietario.

El Jueves 28 del corriente á la una en punto del dia venderemos a la mas alta postura y dinero de contado por orden terminante de su dueño de este importante establecimiento cuyo particular nombre es el siguiente:

Terreno 1600 vs. de frente por 1800 vs. de fondo con 2 casas de material una con 7 piezas y la otra con 4, todas de azotea, 1 palomar, 3 galpones uno de 30 vs. de largo por 11 vs. de ancho y el otro 20 vs. por 8 id, de buenas maderas, un corral con 300 medios postes y estacones de fondo bay, 2 corrale para ovejas, 2 puestos con ranchos, corrales, pozo etc.

Quinta, se compone de 4 cuadras plantada con los mejores árboles frutales, como duraznos, ciruelos, damascos. peras etc., vencinas, daraisee de 16 años, 3 cuadras con alfalfa.

El campo queda entre los de los Sres. Iracla y Demaria, el terreno es alto y quebrado de buenos pastos y uno de los mejores en el partido de la la Ensenada.

OVEJAS

Hay como 5000 mestizas buenas, 640 muy finas, 78 negretes, como 25 caballos, 100 yeguas en majadas etc.

Hoy que la mayor parte de los saladeros se trasladan a la Ensenada, las personas de capital no deben perder la ocasion de hacerse de una propiedad tambien situada y que ofrece muy brillante porvenir al comprador en vista de que antes de poco tiempo el ferro-carril de la Boca estará en el Puerto de la Ensenada.

POR
BALBIN y PLOWES.

EN BELGRANO.

TERRENOS DEL DR. CORVOLAN,

Catorce manzanas de estos terrenos, los mas valiosos y mejor situados en este precioso pueblo.

Prolongacion y ensanche de este lindo é importante pueblo de campo.

El Domingo 24 del corriente, a las 12 del dia se rematará al mas alto precio y dinero de contado, una parte de los valiosos terrenos del Sr. Dr. Jorge Corvolan, que se han dividido en manzanas con arreglo a la traza del lindo pueblo de Belgrano.

Es escusado detenerse en manifestar las recomendaciones con que se hacen notar estos terrenos, bastara indicar que su calidad es superior, que son mas altos que el mismo pueblo, que estan dos cuadras de la Plaza, de la Iglesia, y de la Calle Real, quedando a pocas varas del nuevo paseo que se construye sobre la barranca, lo mismo que de la capilla vieja, con la cual lindan calle por medio, que la estacion del fer
